	REACH und RoHS Conformity	REACH & RoHS 01 en Revision 0
	Seite 1 von 1	

We,

declare in sole responsibility,

that no chemicals listed in the REACH (Registration, Evaluation and Authorization of Chemicals) regulation are present or used in the products delivered by Steeldesign. This also applies to our used packaging materials.

Steeldesign GmbH also guarantees that no materials are used in accordance with RoHS 2011/65/EU Directive in conjunction with Directive 2015/863/EU.

- cadmium (Cd)
- mercury (Hg)
- lead (Pb)
- polybrominated biphenyls (PBBs)
- hexavalent chromium (Cr VI)
- polybrominated diphenyl ethers (PBDEs)
- butylbenzylphthalat (BBP)
- Di(2-ethylhexyl)phthalat (DEHP)
- Dibutylphthalat (DBP)
- Diisobutylphthalat (DIBP)

Steeldesign also does not use the flame retardants Octabromodiphenyl ether and Pentabromodiphenyl ether, which are prohibited by 2003/II/EC, 76/769 EEC.

With all new developments, Steeldesign GmbH will comply with the obligations of the REACH regulation and also ask its suppliers not to use REACH-listed chemicals.

Excluded from this declaration are all components and assemblies supplied by the customer or specially purchased at the customer's request.
