

# Delivery Range Wall Housing up to IP69K Standard Delivery Programme

STEELDESIGN

## Terminal boxes, extremely resilient, up to IP69K

- Material:** Stainless steel 1.4301, AISI 304  
Stainless steel 1.4404, AISI 316L, (V4A)  
Stainless steel 1.4571, AISI 316Ti, (V4A)
- Material thickness:** See table
- Surface:** polished, grain size 240
- Protection class:** IP69K
- Construction-features:** Knife-edge seal WITHOUT gap
- Closing:** welded-on multifunction nuts  
Screw connection with recessed screws and conical guide, attached outside of the sealing space
- Seal:** Silicone seal 8 mm x 12 mm
- Wall attachment:** IP66: Attachment bore diameter 7 mm  
IP69K: Housing without attachment bore  
Optional: Attachment is performed via welded-on wall tabs with attachment bore (please indicate in your order)\*
- Dimensions:** **See table. Other sizes available.**  
\*please indicate in your order

Designation	Size in (mm) height	x	Width	x	Depth	Material-Thickness (mm)
SL-KK 101006	100	x	100	x	60	1.25
SL-KK 101506	100	x	150	x	60	1.25
SL-KK 102006	100	x	200	x	60	1.25
